

NATURAL GAS & OIL

As a recognized leader in the Natural Gas & Oil industry, Van Ness Feldman provides comprehensive services to the companies operating in the areas natural gas, oil, and refined products. We advise clients at every stage of the oil and natural gas infrastructure development process, including pre-development, project structuring, development, permitting, construction, operation, expansion, continuing regulatory compliance, and ongoing transactional services.

Honored by Chambers USA as *“the premier energy boutique in the USA,”* Van Ness Feldman represents clients in almost every component of the oil, refined products, and natural gas industries, including the firm’s involvement in two of the largest natural gas pipeline projects ever constructed in North America—the Rockies Express Pipeline and the Alaska Gas Pipeline—and a number of other pipelines developed to access shale gas reserves. In addition, the firm serves as legal counsel to numerous oil and refined product pipelines, interest holders, refiners, offshore exploration and production companies, offshore drilling companies, and LNG terminal developers.

With one of nation’s most well-renowned natural gas & oil practices, Van Ness Feldman continues to build upon the firm’s long-standing reputation as an industry leader by approaching each project strategically, bringing to bear unparalleled substantive legal expertise, a results-oriented understanding of client’s business goals, and an intimate familiarity with impacts of energy and environmental policy and regulation on large scale energy projects.
