

UTILITIES

Public, private, and municipal utilities face a myriad of complex legal, regulatory, and business issues and challenges, many of which are further complicated by the continuing evolution of the nation's power system. Van Ness Feldman is uniquely suited to assist clients in dealing with these difficult challenges in an efficient, skilled, and collaborative manner.

Van Ness Feldman's nationally recognized team of attorneys and policy professionals has decades of experience representing the utility industry on a range of issues including:

- Facilitation and financing of energy transactions;
- Compliance with state and federal regulations;
- Participation in organized markets;
- Development of transmission facilities;
- Participation in federal rulemakings; and
- Administrative and appellate litigation.

Van Ness Feldman's representations encompass all regulatory, legislative, and transactional matters arising before the following agencies:

- Federal Energy Regulatory Commission (FERC)
- North American Electric Reliability Corporation (NERC)
- Pipeline & Hazardous Materials Safety Administration (PHMSA)
- Commodity Futures Trading Commission (CFTC)
- Nuclear Regulatory Commission (NRC)
- Environmental Protection Agency (EPA)
- Executive Branch agencies, state commissions, courts, and Congress
